RECONSTITUTION Always centrifuge tubes before opening.Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. SHIPPING The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature listed below. STORAGE Lyophilized protein should be stored at < -20 °C, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at 4-7°C for 2-7 days. Aliquots of reconstituted samples are stable at < -20° C for 3 months. BACKGROUND Secretogranin-2 is also known as Chromogranin-C, Secretogranin II, Sgll. In humans, it is encoded by the SCG2 gene.It belongs to the chromogranin/secretogranin protein family. Secretogranin-2 is a neuroendocrine secretory granule

protein, which is the precursor for biologically active
